REQUEST FROM BELVIEW CITY COUNCIL:

The Belview City Council is in the process of addressing violations to the City’s Environmental Control Ordinance. We have been getting quite a few complaints about some properties in town.

The City of Belview’s Environmental Control Ordinance covers such things as visual pollution, control of diseased trees, trees and woody vegetation, and nuisances that affect health, peace and safety. The ordinance also defines the enforcement and abatement process when violations to the ordinance are not addressed by the property owner.

The City Council hopes that all property owners will voluntarily comply with the ordinance. Violators will receive a list of specific items which are in violation after the June 11th council meeting and will be given 10 days to comply. If they fail to comply the City Council will begin the abatement process.

Some of the items that are addressed are inoperative cars or other junk that is allowed to remain within public or private property, unsafe and unsightly fencing, noxious weeds, accumulations in the open of discarded or disused machinery, household appliances, automobile bodies, garbage, refuse or other material, in a manner conducive to the harboring of rats, mice, snakes, or vermin or the rank growth of vegetation among the items so accumulated, or in a manner creating fire, health, or safety hazards from such accumulations.
