BELVIEW BULLETIN

July 2019

VIOLATIONS TO CITY’S ENVIRONMENTAL ORDNANCE CONTINUE TO BE AN ISSUE:

We get comments regularly on how nice our town looks but occasionally the City Council is made aware of problem properties by neighbors or other concerned citizens. This continues to be an ongoing issue and has been addressed in the newsletter for the last couple of months. Some of the biggest concerns that continue to be brought before the City Council are yards that are not mowed and trimmed, junk/inoperable vehicles or accumulated refuse or debris.

In an effort to avoid having to issue further citations, it is the City Council’s hope that all property owners take the necessary steps to eliminate any problem areas. Copies of the City’s Environmental Ordinance are available upon request at the City Clerk’s Office.

WATER METER READINGS ESTIMATED THIS MONTH:

This month’s water meter readings needed to estimated. When this happens the city’s utility billing program takes an average of the last three month’s readings. We wanted to make you aware of this in case you questioned your water usage for the month. Actual meter readings will be done in August.
BELVIEW BOOSTER CLUB IN NEED OF VOLUNTEERS:

As we near Old SOD Day weekend, we are trying to schedule volunteers to help cover everything that the Booster Club is in charge of that weekend. We just do not have enough members to cover everything that needs to be done and would be very grateful for volunteers from the community that would be willing to take a shift at something that weekend.

Volunteers are needed in the following areas:

- Drivers for the Kiddie Train rides. Need 18+ year old drivers to take shifts driving the lawnmower with kiddie train around town.

- Bouncy House (2 hour shifts from 10 a.m. to 4:00 p.m.)

- setting up Odeon for breakfast immediately after the parade

- Helping with the pancake breakfast on Sunday

If you have any family members or friends that are planning on coming for the weekend that would be willing to help out that would be great. Have them contact Lori at 507-938-4335.

UNITED STATES FLAG DISPOSAL LOCATION:

Do you have a worn out or tattered United States flag and you are not sure of the proper way to dispose of it? Bring it to the Belview Community Center and place it in the designated container. The collected flags will then be disposed of in a proper and dignified flag disposal ceremony conducted by the American Legion.
