2nd Annual “Cruisin’ for a Cure-Belview” Fund Raiser:

Cruisin’ for a Cure-Belview held their second annual cruise on Sunday, September 15, 2019. There was a total of about 30 vehicles participating. Registration was held at the Belview Bar and Grill. After a scenic cruise, the group returned to Belview for refreshments and build your own croissants.

Save the date and mark your calendars now for next year’s cruise which will be on Sunday, September 19, 2020.

They raised a grand total of almost $1600. A share of the proceeds will be given to the American Cancer Society. Donations to the American Cancer Society are used to fund life saving cancer research, patient support services including nights of free lodging provided to patients at the Hope Lodge, prevention and education information, and detection and treatment programs. The remaining share of the proceeds will stay local and be used to purchase Cenex gift cards for individuals from the Belview area that are undergoing cancer treatments.

If would like more information on Cruisin’ for a Cure-Belview’s Relay for Life team or would like to make a donation contact Lori Ryer, Kim or Marlo Sander or Judy Grannes. Checks can be made to “Cruisin’ for a Cure-Belview”. If you would like your donation to be tax deductible you can make check’s to “American Cancer Society.”

$100 CASH-Sharon Hustad

$100 CASH-Clark Grannes

$100 CASH-Lisa Reynolds

$100 CASH-Joe Evenson

$100 CASH-Justin Jakel

$100 CASH-Jesse Pabst

AND THE DIGGING CONTINUES:

Digging the new city well is going a bit slower than anticipated. Sure would be nice if there was a way to know exactly what lies 200+ feet or so below the surface. Unfortunately, that is not the case so the only way is to dig a test hole (or three at this point) and hope for the best. The test holes have been in the general area of the well that is being replaced which is in the south/southeast corner of the old football field. It was determined to try a different area within the athletic field and hopefully the well drillers will find exactly what they are looking for. They will be digging test hole number 4 on the east side of the tennis court. There are lots of regulations and setbacks to take in to consideration when determining the best location of a public well. Keep your fingers crossed that it does not become necessary to dig too many more test holes.
