## **EXCESSIVE SNOW:**

It has been many years since we have had to contend with so much snow. Along with all of the snow come concerns about snow removal. To alleviate some of the problems, the city would like to suggest that if you contract with an individual to do snow removal in your driveway or do it yourself that if possible it not be done until the City crew has had a chance to clean the street. That will help to eliminate snow being piled at the end of your cleared driveway when the street is cleaned.

Also, please move vehicles off of the street after a snowfall so that they do not have to be plowed around.
