

CITY OF BELVIEW

October 18, 2016

The City Council of the City of Belview met for their regular monthly meeting on October 18, 2016 at the Belview Community Center, Belview, MN at 6:30 p.m..

PRESENT: Mayor Marlo Sander, Council Members: Linda Sullivan, Janet Anderson, and Myrle Peterson

ABSENT: Dianne Donner

STAFF: Lori Ryer

OTHERS: None

Mayor Marlo Sander called the meeting to order at 6:30 p.m.. The consent agenda was approved on a motion from Janet Anderson and was seconded by Linda Sullivan.

Marlo discussed the additional work that has been done to help alleviate the storm water issue on the southeast end of town.

The City Council reviewed the final report received on the recently completed road project. We received \$239,000 in grant funds from MN Dept. of Transportation. Our share of the project which includes the street construction and the work in front of the fire hall is \$55,610.80. A CD will mature the first part of November that will be used to pay our share of the project. The council approved the redemption of the CD at that time.

The Council approved the letter of credit with MinnWest Bank as in the past.

The date of the City Council meeting for November was changed to Wednesday, November 9th because of Election Day.

The carpet in the community center was recently replaced after the water damage due to heavy rains. The invoices from Service Master and Larsen's Home Furnishing were turned in to insurance for reimbursement.

Checking and Investment report and the Sick and Vacation report were reviewed.

Discussion was held on the ECPN reimbursement to the State which we have never been invoiced for even after repeated attempts to ask them to begin invoicing us. An email was received from Gary Johnson the new director of the program. He said he had contacted the supervisor of the section that sends out the billing and explained the situation.

Correspondence was received from Scott Wold, Director of the Redwood County Environmental Office regarding a discrepancy in the description of the parcel for the waste water ponds and the actual location. No action is required at this time they just wanted to make us aware of the discrepancy. If the city chooses to correct the legal

description he stated no survey would be needed. The description shows the ponds a little north of the actual location.

Meeting adjourned.

City Clerk/Treasurer
