Security cameras have been installed in the city shop.

Correspondence from the Redwood County Attorney regarding a criminal damage to property case was reviewed.

Sue Nelson of Parkview Home discussed the admission process that takes place at Parkview Home. The admission process is quite extensive and includes coordination with the referring facility and an assessment from a physician to make sure that Parkview Home is equipped to handle all the needs of the incoming resident. If a delay happens it may be due to a staffing issue for that particular day or possibly the staff is already in the process of doing another admission. At times, an admission is wanted during a weekend when a pharmacy is not available to fill necessary prescriptions that the incoming resident might require. If something like this happens and the family has questions it is best to contact Parkview Home Administration. In the majority of cases, the admission process moves along smoothly but every so often circumstances beyond Parkview staffs control occur and it takes a bit longer than either the family or Parkview Home would like. In every case it is the goal of the Parkview staff to make the incoming residents stay and the families experience as positive possible.

Rita Donner, President of the Belview First Responder asked for permission for two squad members to attend Long Hot Summer Conference which is sponsored by North Memorial Education . The motion was made by Myrle Peterson and seconded by Janet Anderson. Carried. She also stated that they are down to only four members on the squad and are in need of more volunteers. Jonathan Mertens is interest in becoming a First Responders. He is already EMT certified. This request was approved by Linda Sullivan and was seconded by Myrle Peterson. Carried.

David Diekmann checked with Parkview Home and was told that they are not interested in buying our old lawn mower so we will trade it in on the new one.

David Diekmann is in need of a new control panel for the lift pump for the water tower. It is necessary for efficient operation of the water plant.

North Star Pump did the maintenance on the lift pump at the waste water department.
